

In 2017 USTA will begin to use Junior Ratings for Junior Team Tennis. Ratings are designed to reward you for competing, inspire you to develop your game, and offer the opportunity to compete more regularly and to be the best you can be. Utilizing this rating system is a great way to group players of similar ability together on teams and within line ups

[How do I search for a Junior Rating level?](#)

Step 1. Go to website: <http://tennislink.usta.com/Tournaments/Common/Home.aspx>

Step 2. Log in to your TennisLink account

Step 3. Enter USTA Account #, Tournament # or Player Name in the “Find a Jr Rating Level” search box

If you have played a minimum of four matches in the last 18 months in any of the following, then you more than likely have a dynamic rating:

- 12U-18U divisions in USTA-sanctioned and non-sanctioned junior tournaments and/or Junior Team Tennis leagues
- USTA men’s/women’s Opens
- USTA Pro Circuit events
- U.S. International Tennis Federation (ITF) events

A player must play another player with a dynamic rating in order for that match to count towards the four matches. It may take many more matches to generate a rating in TennisLink.

To find your rating - tournament players/providers [click here](#), and Junior Team Tennis player/providers [click here](#)! You must be logged into your USTA account in order to search for a junior rating level.

If you have not participated in any of these events in the last 18 months, or if you are new to USTA-sanctioned competition, you will need to complete the self-rate process. Players should rate themselves based on their overall tennis ability. If players are stronger at singles or doubles, they should base their rating on the stronger game.
